The Klothing Kontrol Alarm is a unique, tamper-resistant warning system. It offers the widest variety of sensors available to protect garments. It incorporates a "visual memory" that keeps the LED's flashing until the tampered sensor is identified and corrected. **It is the most powerful alarm on the market with up to 16 months battery life.** If the alarm is triggered, the battery power is capable of sustaining a continuous alarm for up to 6-1/2 days! It has the "Where-Its-At" option, that flashes a light at the top of the display to help locate the source of the alarm. Its compact size allows protection without being visually obtrusive.
