

The Next Generation In Display Security

VANTAGE™

- Makes Keys Obsolete
- Programmable Buttons
- Manager's Button
- Dept. Programmable
- Colors Colors Colors
- LED Status Indicator

Vantage I & II is a unique design for the Retail Stores of the future. With our Button Control System, each department can be programmed so that only the designated Sales Associates can turn on or off the desired products. From Cell Phones to Cameras and MP3 Players the new Vantage™ can handle your entire Electronics Display.

Available in a wide range of colors
